

Changing the Video and Music Add-on Shortcuts to your favorite ones

On the KODI Main Menu

- 1) Select "**SYSTEM**"
- 2) On the left side under *Confluence* , select "**Interface**" then "**Skin**"
If you do not see **Interface** use the "**back arrow**" button to return to the menu with **interface**
- 3) On the right side under **Interface-Settings**, select "**Configure skin**"
- 4) On the left side under *Confluence*, select " **Add-on** "
Shortcuts
- 5) On the right side under **Skin Settings-Add-on**, select the "**Add-on**" you wish to change but wait 5 seconds for the menu to change.
- 6) Under the **Video add-ons menu** scroll through the add-on's list and "**select**" the one you want. If the one you want is not in the list you can select "**Get more...**"
- 7) Repeat **steps 5) and 6)** until you have made all your changes.
- 8) to **exit** select the "**home icon**" at the bottom right corner of the screen, or press the "**Return arrow**" button on the remote 3 times, or press the "**Escape**" key on your keyboard 3 times.
